TITLE: 11:00 A.M. – ASSET MANAGEMENT PRESENTATION

Meeting: Council Meeting

Meeting Date: March 12, 2025

Background

Golnaz Azimi of Azimi Consulting will be presenting Council with an Asset Management Initiative Council Update.

Asset Management Roadmap: Progress and Next Steps (2023-2024)

As outlined in our Asset Management Roadmap through 2023-2024, we have made significant progress in assessing and improving our asset management practices. To date, we have successfully completed Service and Risk Assessments for the following key service areas:

- **Water**
- **Wastewater**
- **Transportation**
- **Agriculture**
- **Parks**

These assessments have provided valuable insights into the condition, performance, and risks associated with our critical infrastructure and services. The completion of these assessments marks an important milestone in the development of our Asset Management Plan, aligning with our commitment to effective and sustainable asset management.

This presentation will provide an overview of these accomplishments and outline the **next steps** in the Asset Management process, ensuring we continue to build on our progress and work towards our long-term goals.

Alignment with the Strategic Plan

STRONG COMMUNITIES: Flagstaff County's commitment to Strong Communities means we will provide community services that make Flagstaff an attractive place to live for all generations.
