

World Water Day Webinar on Glacier Preservation

Date: March 21, 2025

Location: Online

Time: 12:00 - 1:00 pm

You are invited to this year's World Water Day Webinar! Alberta's Watershed Planning and Advisory Councils (WPACs) will be diving into the critical topic of Glacier Preservation and its impact on our water resources.

Workshops & Events - Join Us

April 11, 2025, Battle River and Sounding Creek Stewardship Community of Practice Workshop

Location: BRWA Office, Mirror Lake Centre, Camrose

Time: 9am - 3pm

BRWA is hosting an in-person gathering of the Battle River and Sounding Creek Stewardship Community of Practice. [For information and to register](#)

June 19, 2025, BRWA Annual General Meeting

Location: BRWA Office, Mirror Lake Centre, Camrose

Time: 9am - 3pm

Save the date! The OTIS Awards will be presented following the business meeting.

In the Classroom

Nature Science + Sport Skills Combo Camp

BRWA and Augustana's Campus Recreation, Vikings Athletics, and Environmental Science programs are working together to run a week-long camp from July 21-25 for children ages 9-12. Half of the day, participants will take part in a variety of indoor and outdoor sports. The other half of the day, they will explore the watershed, sample water quality, and learn about biodiversity and habitat. The camp will be held in Camrose at U of A, Augustana Campus. Spots are limited.

Water Matters

Wainwright Water Treatment Tour

A few weeks ago, BRWA staff had the opportunity to visit Wainwright's Water Treatment Facilities. Through this, we were able to have many productive conversations, learn more about one of the few treatment plants that pulls water from the Battle River and gain understanding about the water cycle in Wainwright.

It also allowed us to inquire about the possibility of expanding the Waste in Our Watershed Tour to Wainwright. We are incredibly grateful to our hosts at the Town of Wainwright and CFB Wainwright.

The Alliance

Women in Science

The BRWA has several amazing women on staff who are able to enhance our stewardship and education work in the Battle River and Sounding Creek watersheds through their expertise, understanding, and passion for science and conservation! Through their work,

they raise awareness and inspire future environmental stewards and promote sustainable practices that protect and preserve our watersheds. We are so grateful to have such an amazing team.
